riya
Student

I am a front end developer based in India Currently an undergrad. from Chitkara University. Designer and developer devoted to crafting beautiful web experiences focused on simplicity and purpose I am passionate about building excellent software that improves the lives of those around me. I specialise in React. I love combining the worlds of logic and creative design to make eye catching , accessible, and user friendly websites applications. Technology leads, Society follows . The move towards increasing inclusivity and diversity in the industry through representation is of importance to me . I am excited to make the leap and continue refining my skills .
